

SEVERE WEATHER BULLETIN #1
FOR: TROPICAL DEPRESSION "TONYO"
TROPICAL CYCLONE: WARNING

ISSUED AT 11:00 PM, 07 November 2020
(Valid for broadcast until the next bulletin to be issued at 2 AM tomorrow)

THE LOW PRESSURE AREA WEST OF SORSOGON HAS DEVELOPED INTO TROPICAL DEPRESSION "TONYO" AND IS NOW IN THE VICINITY OF TICA0 ISLAND

Track and Intensity Outlook

The center of Tropical Depression has "TONYO" made landfall over Burias Island at around 9:00 PM today. This tropical depression is forecast to move rapidly westward over the Sibuyan Sea within the next 12 hours and its center is likely to pass close or over the vicinity of Masbate, Romblon, and Mindoro Provinces. It is forecast to emerge over the West Philippine Sea tomorrow morning. On the forecast track, the tropical depression may exit the Philippine Area of Responsibility (PAR) on Monday morning.

Hazards affecting land areas

Heavy rainfall: Tonight through tomorrow, "TONYO" will bring moderate to heavy with at times intense rains over Bicol Region, CALABARZON, Marinduque, Romblon, Mindoro Provinces, Aurora, and the eastern sections of mainland Cagayan and Isabela. Light to moderate with at times heavy rains will also be experienced over Metro Manila and the rest of the country.

Flooding (including flashfloods), rain-induced landslides, and sediment-laden streamflows (i.e. lahar) may occur during heavy or prolonged rainfall especially in areas that are highly or very highly susceptible to these hazards and/or those that received significant antecedent rainfall from tropical cyclones "PEPITO", "QUINTA", and "ROLLY". PAGASA Regional Services Divisions may issue local thunderstorm/rainfall advisories and heavy rainfall warnings while the Hydrometeorology Division and River Basin Flood Forecasting and Warning Centers may issue General Flood Advisories and Basin Flood Bulletins as appropriate.

Strong winds: Areas under Tropical Cyclone Wind Signal #1 is currently experiencing or will be experiencing strong breeze to near gale conditions with occasional gusts throughout the passage of "TONYO". The Northeast Monsoon will also bring strong breeze to near gale conditions over Batanes, Babuyan Islands, Ilocos Norte, Apayao, and the northern portion of mainland Cagayan.

Hazards affecting coastal waters

Moderate to rough seas (1.5 to 3.5 m) due to "TONYO" and the prevailing easterlies will be experienced over the seaboard of areas under TCWS #1 and the eastern seaboard of Cagayan Valley, Aurora, and the northern portion of Quezon. The Northeast Monsoon will be bringing moderate to rough seas (2.0 to 3.0 m) over the seaboard of Batanes, Babuyan Islands, Ilocos Norte, and Ilocos Sur and the northern seaboard of mainland Cagayan.
